

Pharmacy Guide to

PS-Pomalidomide REMS

Risk Evaluation and Mitigation Strategy (REMS)

Important information about pomalidomide and PS-Pomalidomide REMS

- Pomalidomide is contraindicated in pregnant females and females capable of becoming pregnant. Females of reproductive potential may be treated with pomalidomide provided adequate precautions are taken to avoid pregnancy
- To avoid embryo-fetal exposure, pomalidomide is only available under a restricted distribution program called “PS-Pomalidomide REMS” (Risk Evaluation and Mitigation Strategy)
- Only prescribers and pharmacies certified with PS-Pomalidomide REMS can prescribe and dispense the product to patients who are enrolled and meet the conditions of PS-Pomalidomide REMS
- Dispensing pharmacists must be educated on PS-Pomalidomide REMS and on dispensing procedures for pomalidomide
- Information about pomalidomide and PS-Pomalidomide REMS can be obtained by visiting **www.PS-PomalidomideREMS.com** or calling the REMS Call Center toll-free at **1-888-423-5436**

The PS-Pomalidomide REMS includes both POMALYST® (pomalidomide) and generic pomalidomide products. The pomalidomide manufacturers have a contractual agreement for administration of the PS-Pomalidomide REMS. All manufacturers retain responsibility for the actions described in the REMS.

Guidelines for ordering, counseling, and dispensing pomalidomide

Dispensing pharmacies must be certified in PS-Pomalidomide REMS and must be educated in the following dispensing procedures.

Step 1. Review incoming pomalidomide prescriptions

- A. Only accept prescriptions with an authorization number and patient risk category written on them.
 - Authorization numbers are valid for 7 days from the date of last pregnancy test for female patients of reproductive potential and 30 days from the date it is issued for all other patients. No automatic refills or telephone prescriptions are permitted
 - Faxed prescriptions are permissible depending on state laws
- B. Make sure the prescription is signed and dated.
- C. Confirm the prescription is written for a 4-week (28-day) supply or less.
- D. For subsequent prescriptions, verify there are 7 days or less remaining of therapy on the existing prescription.

Step 2. Counsel patients

- A. Make sure a **certified PS-Pomalidomide REMS** counselor counsels the patient.
- B. Complete the corresponding section (based on the patient risk category) of the Education and Counseling Checklist and ensure the form is signed and dated. Ensure the appropriate boxes are checked off. Retain a copy of the checklist and record of the associated prescription.
- C. If the patient mentions adverse drug experiences that are suspected to be associated with the use of pomalidomide and any suspected pregnancy occurring during the treatment with pomalidomide, make sure to document these experiences using acceptable documentation as noted on the checklist.

Acceptable documentation examples:

- 1. Adverse Drug Event form and fax confirmation
 - 2. Pharmacy log
- D. Report all suspected pregnancies to PS-Pomalidomide REMS within 24 hours. See the Suspected Pregnancy Reporting Procedure on page 7 for more information.

Guidelines for ordering, counseling, and dispensing pomalidomide (continued)

Step 3. Obtain confirmation number from PS-Pomalidomide REMS

- A. Prior to each prescription, contact the REMS Call Center at **1-888-423-5436**, or the REMS Pharmacy Portal at **www.BMSREMSPatientSafety.com/pharmacy**.
- Enter the pharmacy NABP number or DEA number
 - Enter the authorization number written on the prescription
 - Enter the number of capsules and milligram strength being dispensed
- B. Write the confirmation number and the date of receipt on the prescription. The confirmation number is only valid for 24 hours.
- C. If you do not obtain a confirmation number, do not dispense pomalidomide.

Step 4. Dispensing

- A. No Refills. A new prescription is required for each dispense. **Dispense subsequent prescriptions only if there are 7 days or less remaining of therapy on the existing prescription.**
- B. Ensure the confirmation number has not expired, ie, dispense within 24 hours from confirmation number receipt. If more than 24 hours have elapsed, **Do Not Dispense**. You must call the REMS Call Center at **1-888-423-5436** to cancel the first confirmation number and obtain a new confirmation number. For female patients of reproductive potential, ship the same day or hand to the patient within 24 hours.
- C. Dispense each prescription with a Medication Guide and maintain a record on acceptable documentation.

Acceptable documentation examples:

1. Signed Education and Counseling Checklist (if counseling pharmacist and dispensing pharmacist are the same)
2. Pharmacy log

Guidelines for ordering, counseling, and dispensing pomalidomide (continued)

D. Document the dispense date and maintain a record on acceptable documentation.

Acceptable documentation examples:

1. Shipping receipt
2. Pharmacy dispensing log

E. Dispense no more than a 4-week (28-day) supply. A new prescription is required for each dispense. No automatic refills or telephone prescriptions are permitted.

F. A signature is required for all shipping and dispense if picked up by patient.

Step 5. Perform drug accountability

A. Pharmacy shall keep an inventory log for pomalidomide, by strength, reflecting its on-hand inventory at all times.

B. Do not transfer pomalidomide to another pharmacy without prior authorization from PS-Pomalidomide REMS.

C. Accept unused pomalidomide (previously dispensed) from a patient or patient caregiver and return the capsules to PS-Pomalidomide REMS for proper disposal.

PS-Pomalidomide Risk Evaluation and Mitigation Strategy (REMS) Education and Counseling Checklist for Pharmacies

Ensure your patients know the risks

Before you are able to fill a prescription for pomalidomide, a checklist for each patient must be completed based on the patient risk category (written on the front of the Patient Prescription Form). When completing the checklist, be sure all the appropriate boxes are checked off (✓) and the form is signed and dated. All boxes and spaces must be marked or filled in during counseling with the patient for every prescription. Retain a copy of the checklist and record of the associated prescription.

A thumbnail image of the PS-Pomalidomide REMS Education and Counseling Checklist form. The form is titled "PS-Pomalidomide REMS" and contains various sections for patient information, risk evaluation, and counseling. It includes checkboxes for different risk categories and a section for the pharmacist's signature and date.

Be prepared to provide the following information for each checklist:

Authorization Number	Confirmation Number	Confirmation Date
Counselor Name	Work Phone Number	Extension
Patient Name	Patient Date of Birth	Pharmacy Name
Pharmacy Address (including City, State, ZIP Code)		

Rules for dispensing and shipping

Making sure before you release pomalidomide

DO NOT DISPENSE OR SHIP POMALIDOMIDE TO A PATIENT UNLESS ALL OF THE FOLLOWING ARE DONE:

- Prescription has an authorization number and patient risk category written on it
- You have obtained a confirmation number and a confirmation date
- You are shipping the product within 24 hours of obtaining the confirmation number and requesting confirmation of receipt. For females of reproductive potential, the product must be shipped the same day the confirmation number is obtained
- The Medication Guide is included with the prescription
- You confirm the prescription is no more than a 4-week (28-day) supply and there are 7 days or less remaining on the existing pomalidomide prescription

For further information about pomalidomide, please refer to the relevant Prescribing Information at www.PS-PomalidomideREMS.com.

Suspected pregnancy reporting procedure for healthcare professionals

Please report any suspected pregnancy occurring during the treatment with pomalidomide to PS-Pomalidomide REMS using any of the following methods.

REPORTING TO PS-POMALIDOMIDE REMS

- Online: **www.bms.com/contact**
- Email: **Worldwide.safety@bms.com**
- Toll-free: **1-888-423-5436** (REMS Call Center)
- Fax: **1-908-673-9115**

REPORTING TO THE FDA

Adverse drug experiences that are suspected to be associated with the use of pomalidomide and any suspected pregnancy occurring during the treatment with pomalidomide may also be reported to the FDA MedWatch Reporting System using any of the following methods:

- Online at: **<https://www.accessdata.fda.gov/scripts/medwatch/medwatch-online.htm>**
- Telephone: **1-800-FDA-1088**
- Fax: **1-800-FDA-0178**
- Mail to: MedWatch, 5600 Fishers Lane, Rockville, MD 20852-9787

For more information about pomalidomide and PS-Pomalidomide REMS, please visit **www.PS-PomalidomideREMS.com**, or call the REMS Call Center at **1-888-423-5436**.

Pomalidomide is only available under a restricted distribution program, PS-Pomalidomide REMS.

Please see relevant Prescribing Information, including Boxed WARNINGS, CONTRAINDICATIONS, WARNINGS AND PRECAUTIONS, and ADVERSE REACTIONS at www.PS-PomalidomideREMS.com.
